

# Cardboard Baler Operator Safety

## Baling & Recycling of Cardboard Waste

4 HOUR COURSE

This course will provide the participant with the necessary knowledge regarding;

- ▶ Federal COHS, Provincial and Territorial OH&S Legislations.
- ▶ Workplace Specific Hazards.
- ▶ Operating Manual.
- ▶ Cardboard Baler Features and Safety Equipment.
- ▶ Pre-operational Inspection.
- ▶ Procedures for Start-up.
- ▶ Operating the Cardboard Baler.
- ▶ Procedures for Shut Down.

This Cardboard Baler Operator Safety training course has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve the operation of a Cardboard Baler.

Industrial and commercial balers have become integral to waste management programs and can be found in food processing, landfills, scrap yards, recycling, hospitality, retail and distribution warehouses. Balers are an uncomplicated solution to waste management.

The goal of this course is to help you better understand what a Cardboard Baler operator responsibilities are and how to manage those responsibilities to protect your health and safety and the health and safety of your co-workers.

We will achieve the course objectives by participating in classroom discussion.
