

# Compact Excavator Operator

## General Industry Applications

**4 HOUR AWARENESS COURSE - 16 HOUR OPERATOR COURSE**

This Compact Excavator Operator training course has been designed for those with an occupational requirement to be trained to safely undertake work activities that involve the operation of a Compact Excavator.

The goal of this course is to help you understand what the operator responsibilities are and how to manage those responsibilities to protect your health and safety and your co-workers.

This Compact Excavator Operator course will also establish an understanding of the statutory requirements of the federal COHS, Provincial and Territorial OH&S legislations.

We will achieve this through discussion and by participating in skills practice and operator performance evaluation.

This course will provide the participant with the necessary knowledge regarding;

- ▶ Identify the Components, Controls and Safety Equipment on a Typical Compact Excavator.
- ▶ Describe the Uses of a Compact Excavator.
- ▶ Perform Pre-start Inspection and Maintenance Procedures.
- ▶ Explain Safety Rules for Operating a Compact Excavator.
- ▶ Start, Warm up, Shut Down and Refuelling Considerations.
- ▶ Perform Basic Manoeuvres and Basic Earthmoving Operations with a Compact Excavator.
